This document describes the phase-out and retirements for MiVoice 5000 product line: Announcement for the February 20, 2017.

## REMINDER OF MITEL FRANCE PRICING POLICY

The two most recent software versions of the same product remain in the tariff.

The launch of a new version N presupposes the withdrawal of the N-2 version for new sales of the tariff as well as the phasing out of the N-1 version, which remains to the tariff.

Hardware and software extensions to the N-2 Version remain controllable during the life of this release.

## AVAILABLE MIVOICE 5000 VERSIONS

### MIVOICE 5000 – NEW SALES

MiVoice 5000 6.2 and MiVoice 5000 6.3 are available in Mitel CPQ, 6.1 version will no longer be available for new sales in Mitel CPQ.

### MIVOICE 5000 – EXTENSIONS AND UPGRADES

MiVoice 5000 extensions for 6.2 and 6.1 (MiVoice 5000 and MiVoice 5000 Manager) are available in Mitel CPQ (in both existing configurations or loose item mode)

### REMINDER: NEXSPAN XS/XL/XD RANGE R4.2 VERSIONS AND LOWER

We also remind you that all the software and hardware from NeXspan XS / XL / XD range in R4.2 version or lower versions are removed from the tariff for several years and can no longer be controlled.

## PHASE OUT

Reminder: Product Phase-out is a proactive communication that alerts each partner on the fact that a phase-out reference or an article can be ordered but will be available only to the extent of available stocks. MITEL France strongly recommends providing the latest available version and upgrading the installed base in this latest version as soon as possible.

### MIVOICE 5000 6.2 AND MANAGER 3.2 – NEW SALES

Following the introduction of MiVoice 5000 6.3 and MiVoice 5000 Manager 3.3, Mitel announced the phase out of MiVoice 5000 6.2 and MiVoice 5000 Manager 3.2 part numbers for new sales.

### MIVOICE 5000 6.1 AND MANAGER 3.1 – EXTENSIONS ET UPGRADES

Following the introduction of MiVoice 5000 6.3 and MiVoice 5000 Manager 3.3, Mitel announced the phase out of MiVoice 5000 6.1 and MiVoice 5000 Manager 3.1 part numbers for extensions and upgrades.

### EXTENSION BOARDS (MITEL 5000 XS/XL/XD): LM8 BOARD

Mitel announced the phase out of the LM8 board (Part number BHJ4726A).

### MITEL SIP DECT 6.1 – NEW SALES

Following the introduction of Mitel SIP DECT 7.0, Mitel announced the phase out of SIP DECT 6.1 part number for new sales.

### MITEL SIP DECT 6.1 – EXTENSIONS ET UPGRADES

Following the introduction of Mitel SIP DECT 7.0, Mitel announced the phase out of SIP DECT 6.1 part number for extensions and upgrades.

### MITEL 340W ET 342W WLAN TERMINALS

Mitel announced the phase out of Mitel 340W and 342W WLAN terminals.

## RETIREMENTS

References concerned by the retirements are mentioned in the Retirement spread sheet of the Tariff.  
Reminder: Retired products will be removed from Mitel CPQ model and pricelists. Orders for those products will not be accepted. Retired products remain repairable by the after-sales service.

### TWP ALL VERSIONS – NEW SALES

As stated in the November 2016 Phase out document, Mitel announced the Final end of sales of TWP part number for new sales, extensions and upgrades; it affects all versions of TWP. Final end of sales will be effective on February 17<sup>th</sup> 2017 (End of Algoria contract).  
A migration offer to MiCollab is available since December 2016.

### MIVOICE 5000 6.1 AND MANAGER 3.1 – NEW SALES

Following the introduction of MiVoice 5000 6.3 and MiVoice 5000 Manager 3.3, Mitel is announcing the retirement of the MiVoice 5000 6.1 and MiVoice 5000 Manager 3.1 part numbers for new sales.

### MITEL SIP DECT 5.0 – NEW SALES

Following the introduction of Mitel SIP DECT 7.0, Mitel is announcing the retirement of SIP DECT 5.0 part numbers for new sales.

### MITEL 320W WLAN TERMINAL

Mitel is announcing the retirement of Mitel 320W WLAN Terminal since warehouse is out of stock.

### MITEL 5000 CONTACT CENTER R3.2

Following the introduction of Mitel 5000 Contact Center R3.3, Mitel is announcing the retirement of Mitel 5000 Contact Center R3.2 part numbers for new sales.
