PH PM BUS

All GoForward-, Sales- and Service Partner

## **PH PM BUS Circular No. 06/2014**

### **Product Phase-Out Hipath Xpressions Compact V3.0**

The phase-out of the product HiPath Xpressions Compact V3.0 (used for HiPath 3000 and OpenScape Business) for the direct and indirect channels in the sales regions Germany, International Markets and USA has been started.

All sales activities relating to HiPath Xpressions Compact are to be ended according to the milestone dates published below. New service contracts should no longer be entered into, and existing rental agreements and service contracts should not be prolonged after expiration.

#### **Successor Product/Solution**

This phase out has been initiated due to the corresponding phase out of HiPath 3000 V9 (SEN VA SME Circular No. 06/2013). The discontinuation of HiPath Xpressions Compact is made simultaneously with all other product enhancements and licenses the HiPath 3000 V9.

The integrated unified communications platform OpenScape Business provides complete voice mail and auto-attendant functions, so that the Xpressions Compact is obsolete as an assembly. The distributors are therefore able to place the voice mail and auto attendant features as part of a comprehensive UC offer to the customer.

The previously by the Xpressions Compact module covered scope is now integrated in a similar or improved function in the Unified Communications Solution OpenScape Business. By embedding these features in UC, there are opportunities for the customers to improve their workflows.

#### **Unify GmbH & Co. KG**

Registered offices: Munich; Commercial registry Munich, HRA 88546;  
WEEE-Reg.-No. DE 27980375. General Partner: Unify Management  
GmbH. Managing Directors: Alexander Frick, Thomas Heim, Martin Kinne;  
Chairman of the Supervisory Board: Mark Stone; Registered offices:  
Munich; Commercial registry: Munich, HRB 163415

Hofmannstr. 51  
81379 Muenchen  
Germany

In addition, our partners and own sales organizations benefit from the elimination of the additional hardware of the Xpressions Compact board, as the functions are now provided on the mainboard of the OpenScape Business or on the UC Booster Card.

Hereby Unify continues following the strategy to fully integrated Unified Communications solutions in the SMB environment.
