

September 16, 2015

Greetings,

BroadSoft is pleased to announce that the Mitel 68xxi Series has been formally validated with BroadWorks. The device model(s) listed below have been validated as interoperable with the BroadWorks SIP interface. Configuration details and any issues or limitations identified during the interoperability testing are documented in the BroadSoft Partner Configuration Guide (PCG) *PartnerConfigGuide Mitel 68xxi Series*. The PCG is available to BroadSoft customers on the BroadSoft Xchange website at xchange.broadsoft.com.

BroadSoft validates that the device interoperates with the BroadWorks SIP interface. BroadSoft does not validate qualitative aspects of the device, capacity, or other device capabilities outside the scope of the SIP signaling interface.

The validation covers the Mitel version(s) and BroadWorks release listed below. Other versions tested previously are documented in the PCG.

Mitel models: 6863i, 6865i, 6867i, 6869i
Mitel version: 4.1.0.128 *
BroadWorks Release: 21.0, 21.sp1

*This validation also applies to all subsequent compatible maintenance releases to this device version.

Best Regards,
